RE: WCRB Web Site Enhancements

Over the past several months the following enhancements have been made to the WCRB Web site.

1. Wisconsin Underwriting Manuals.
 - Wisconsin Basic Manual – rules governing the writing of worker's compensation policies. The manual can be printed from the Web site.
 - Wisconsin Classification Manual - classification section of the Basic Manual, along with WI analogies. This manual has been incorporated into the Class Code Look-up section. A pdf version of the class code section is available upon request.
 - Experience Rating Manual – rules governing the application of the experience rating plan. The manual can be printed from the Web site.
2. Manage USR was implemented in September of 2004 to allow carrier users to track and view their Unit Statistical Reports. The product has already been updated on several occasions with enhancements including the ability to view reject letters, viewing USRs in an aggregate (summarized) view, as well several smaller enhancements.
3. The NTC Lookup has been recently enhanced at a user's request to include an issued date search criteria.
4. The WCPAP Worksheets product was made available in January of 2005 to carriers to search for and view WCPAP Worksheets for their risks.

We encourage you to visit our Web site.
