TO: Members of the Bureau

FROM Donna Knepper

RE: NCCI Proposal Item B-1410 Revision to Basic Manual Classifications &

Appendix E – Classifications by Hazard Group

Pursuant to ch 626, Wis. Stats., the State of Wisconsin, Office of the Commissioner of Insurance has advised that the action taken by the Governing Board has been approved.

The following revisions are approved effective October 1, 2011, applicable for new and renewal business only:

### 1. Carpentry Shop

 Discontinue code 2812 Cabinet Works-With Power Machinery and combine the exposure with code 2883 Furniture Mfg-Wood-NOC.

The experience for both codes 2812 and 2883 will be combined to produce the effective rate for 2883.

The following changes to the class code phraseologies are proposed:

## 2. Manufactured, Modular Homes Manufacturing

• Adopt the proposal to create code 2797 for the manufacture of both mobile homes and modular homes.

The initial rate for 2797 will be that of code 3824 until 2797 establishes sufficient experience to develop its own rate.

The following changes to the class code phraseologies are proposed:

	CURRENT PHRASEOLOGY	PROPOSED PHRASEOLOGY
2797	NONE	

MANUFACTURED, MODULAR, OR PREFABRICATED HOME MANUFACTURING - SHOP WORK - ALL OPERATIONS & DRIVERS

This classification applies to insureds that manufacture or fabricate manufactured, modular, or prefabricated homes at a factory site only. Manufactured homes are also known as mobile homes. Framing can be done with wood or metal studs.

Manufacture of masonry or concrete modular building (built in a shop, transported to the site, and set in place) must be separately rated.

This classification includes the manufacturing of nonmotorized construction, home-type, medical, and bank trailers, and similar portable buildings; campers that are set on pickup trucks; and truck sleepers that are mounted behind the cab of semi trucks. It includes installation or repair of the beforementioned products assembled at the factory site only.

This classification also includes delivery performed by the manufacturer. Delivery from an outside trucking company must be separately rated to the appropriate trucking classification. Setup, hookup, installation, or finish work at a job site must be separately rated.

### 3. Manufactured Homes Setup

- Adopt the proposal to create code 2799 for the setup and installation of mobile homes, modular homes and prefabricated homes.
- Expand the scope of code 6400 to include the construction of fences produced from materials other than metal, including wood and vinyl.

The rate for 2799 will be developed by initially applying a weighting of the experience for codes 8391 and 5403 until such time that 2799 establishes sufficient experience to develop its own rate. Specifically, the weight applied to the experience for 8391 will be 75% while the weight applied to the experience of 5403 will be 25%.

The following changes to the class code phraseologies are proposed:

	CURRENT PHRASEOLOGY	PROPOSED PHRASEOLOGY
2799	None	MANUFACTURED, MODULAR, OR

		Code 2799 includes the use of any lifts,
		jacks, cranes, or dollies to place home
		sections onto the foundation or foundation
		walls, bolt the sections together, and
		remove any wheels or axles. It also
		includes the hookup of any preinstalled
		utilities in the foundation - such as
		electrical, plumbing, telephone, water,
		sewer, or cable television - to the
		connections on the manufactured or
		modular home. Covering up or hiding the
		seams of each section of a manufactured
		or modular home, installing windstorm tie-

downs on a manufactured home, or spiking a modular home through the foundation wall is assigned to this classification if done by a dealer or specialty contractor. Manufactured homes are also known as mobile homes.  Any construction not associated with the original setup, hookup, or installation of the home, or disassembly and reassembly work required to move the home, must be assigned to the applicable construction code. For example, separately rate the following:  • Construction operations that include site preparation or repair work prior to the setup and after the setup  • Installation of siding, insulation, skirting, deck, fence, septic tank, concrete foundation or sidewalks, or concrete block walls  • Garage building, landscaping, concrete block walls  • Garage building, landscaping, concrete foundation or sidewalks, or concrete block walls  • Garage building, landscaping, concrete foundation or sidewalks, or concrete block walls  • Garage building, landscaping, concrete foundation or sidewalks, or concrete block walls  • Garage building, landscaping, concrete foundation or sidewalks, or concrete block walls  • Garage building, landscaping, concrete foundation or sidewalks, or concrete block walls  • Garage building, landscaping, concrete foundation or sidewalks, or concrete block walls  • Garage building, landscaping, concrete foundation or sidewalks, or concrete block walls  • Garage building, landscaping, concrete foundation or sidewalks, or concrete block walls  • Garage building, landscaping, concrete foundation or sidewalks, or concrete block walls  • Garage building, landscaping, concrete foundation or sidewalks, or concrete foundation
